PABLO CASTELLS

THE FATHER OF PADEL IN INDONESIA

INDO PADEL & BALI PADEL CLUB

There is no doubt we can confirm that Pablo Castells, a lawyer from Barcelona and business consultant for spanish businesses in south east Asia, has become the father of the sport of padel in Indonesia

He started playing at the age of 23 in Barcelona where he was born, and has always promoted the sport everywhere he goes. In india with politicians and influential sports businessmen, supported the country's first padel company with courts in Bangalore, Pune and Mumbai

And as this Catalan man has never been afraid of facing new challenges, in only 6 months has already started organising, in partnership with Melia hotel in Bali, Indonesia where he currently lives, 3 international tournaments with players from more than 12 countries, a players' table and 2 websites promoting the sport of padel in Indonesia.

With Dion, his first padel student of Indonesia (2021)

With Ari, sports businessman and Pablo's business partner with padel projects in Jakarta.

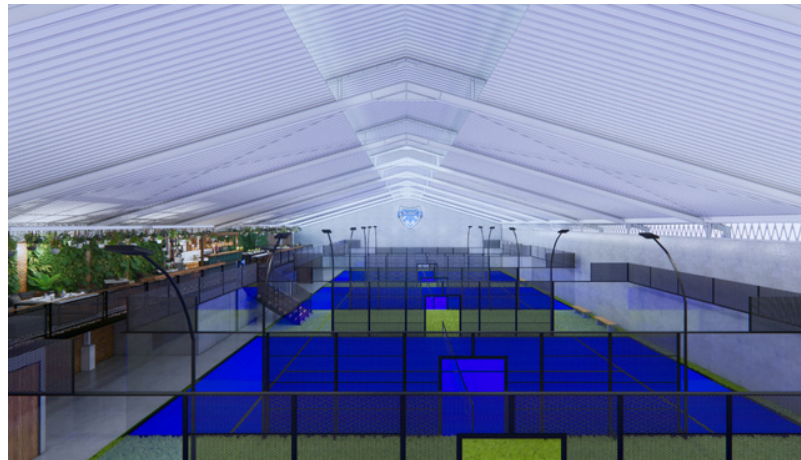

Competitors from the 3rd Indonesia International Padel tournament

Competitors from the 2nd Indonesia International Padel tournament

We don't know if the more than 1000 temples this beautiful island has have contributed to the success this sport entrepreneur has had so far, but in the next few months he will open 3 padel courts in a sports centre in Jakarta collaborating with the Spanish Embassy and his Indonesian business partner.

There is no doubt that padel is growing in Indonesia and at a very fast pace, as these 2 projects lead by Pablo show: www.balipadel.club & www.indopadel.com.

Design of Pablo's first padel Court in Bali

"It is also necessary to mention the hype this sport is bringing to Indonesia, thanks to the loyal and active Spanish players community who gather on a daily and weekly basis at Melia hotel, a beautiful resort in Bali, to practice the sport of padel" as Pablo states to close up this interview.

Also worth mentioning that Pablo's life goal is to connect the sport of padel with his other passion: the development of oppressed communities with less resources, he is doing in India and now in his new country: Indonesia.

Pablo has had great success over the years carrying out social activities of this nature back in India where he formerly lived for more than 12 years.

All the best Pablo, you have all our support.
